“This is a critical time of global uncertainty, with Africa facing significant economic challenges. We remain committed to supporting the continent, especially in markets and sectors that drive growth but often struggle to attract capital. By working counter-cyclically with private sector partners and financial institutions, we aim to mobilise investment, strengthen climate adaptation and resilience, create jobs and unlock opportunities that build long-term economic sustainability.

We would welcome the opportunity to get to know you and your business. You can get in touch [here](#).”
